HIGH GROWTH PROGRAMME

Does your business have **growth potential?**

Fully funded business support to help your business seize opportunities to grow.

Berkshire Growth Hub

Slough Borough Council has received £1million to help support a programme of activities for start-up and established businesses in Slough. The funding from the UK Shared Prosperity Fund is spread across three years until 2025. As part

of this, a new **local start-up programme** has been created, and is being delivered by the Berkshire Growth Hub. It has been launched to nurture emerging new businesses across Slough – taking them from entrepreneur to ‘enterprise ready’.

Each workshop is run by experienced leaders who are specialists in their field and there is a chance to network with other business owners after each workshop. Those eligible to apply for the free workshops include those based in Berkshire, with a firm idea of a business, in the early stages of trading or plan to start soon, and with a turnover (if any) of less than £10,000. **The next start-up programme begins on 26 April. The closing date for applications is 12 April.**

The **High Growth Programme** is also being run by the Berkshire Growth Hub and is designed to support small business owners who are ready to seize opportunities to grow.

Low emission food production

A new opportunity for micro and small businesses to apply for a share of up to £3 million to develop novel production systems that create resource efficient, low-emission foods, particularly proteins has been announced.
