Slough BID Team

Slough Borough Council, we are dedicated to maintaining a clean and attractive town centre. This effort is bolstered by working with Slough Business Improvement District (BID), but we need your support to ensure our community remains beautiful and litter-free.

As a business operating in Slough, you have a legal duty of care when it comes to managing your waste. Please be aware that commercial waste must not be disposed of on the street, in public litter bins, residential bins, or charity / recycling bring banks.

All commercial waste, no matter how small, must only be transferred to an

Disposing of business or commercial waste in any location other than within your businesses dedicated commercial waste container is an offence, and failure to comply with environmental regulations may result in enforcement action, including fixed penalty notices or prosecution.

Proper waste disposal and recycling are crucial for keeping our Town Centre clean and tidy. If you haven't yet explored the trade waste options available, now is a great time to do so. We encourage all businesses to implement a robust waste management plan to ensure they have the appropriate arrangements in place, which can significantly contribute to a litter-free town centre.

To learn more about our commercial waste services and to set up your waste management plan, please visit our website: [Trade Waste Information] (<https://www.slough.gov.uk/site-search/results/?q=waste>).

Let's join forces to keep Slough Town Centre clean and welcoming for everyone.

Thank you,

### Cashless Parking Rollout Begins

Slough is transitioning to a cashless parking system over the next few months, as pay machines will be removed from all car park sites.

This new cashless system is designed to streamline payment processes for residents and customers, making it easier and more efficient to pay the council. Additionally, it aims to lower the high costs associated with managing the current parking options, which include cash, card, and pay-by-phone methods.

The rollout will take place in phases, with machines at car parks and on-street
